# General Acknowledgments

Each year we are fortunate to receive the input of thousands of medical students and graduates who provide new material, clarifications, and potential corrections through our website and our collaborative editing platform. This has been a tremendous help in clarifying difficult concepts, correcting errata from the previous edition, and minimizing new errata during the revision of the current edition. This reflects our long-standing vision of a true, student-to-student publication. We have done our best to thank each person individually below, but we recognize that errors and omissions are likely. Therefore, we will post an updated list of acknowledgments at our website, [www.firstaidteam.com/bonus/](http://www.firstaidteam.com/bonus/). We will gladly make corrections if they are brought to our attention.

For submitting contributions and corrections, many thanks to Aniqah Abdul Rasool, Angie Abreu, Ghaith Abu Hassan, Sulaiman Mahmoud Sulaiman Abualia, Suhaib Abweini, Shaaf Ahmad, Annette Akparobore, Teibah Alhelawani, Mohammad Almajali, Janice Almodovar, Jad Alsheikh, Hamza Alsougier, Karim Amer, Hanan K.
